agguzzy91@gmail.com

Bachelors in **Computer Science** from DePaul University. Studied Software Development aiming to become a Full Stack developer. My informative website "a-guzzardo.info" | **GITHUB REPO** [Rust.Projects](#)

Software Projects

Developed a web application using Flask for easy to manage billing databases of healthcare providers. Intuitive data visualization combined with a responsive feedback mechanism for tracking modifications.

Constructed a web application using the Rocket framework, allowing users to craft and review decks on various subjects, reminiscent of flashcards. Streamlined deck management focused on optimized storage thanks to Rusts memory efficiency .
